Objectives of the DWIH

- Exchange of knowledge
- Scientific cooperation
- Science-companies cooperation
- Marketing
- Information and advice

7th German-Brazilian Dialogue - 2018

“Working and Learning in a Digital World”

Partner: Fapesp

70th SBPC Annual Meeting - 2018

“The Impacts of Digitalization on Higher Education and Research”

Partner: SBPC

6th German-Brazilian Innovation Congress - 2018

Partner:
AHK São Paulo

Startups Connected Initiative

Partner:
AHK São Paulo

Falling Walls Lab Brazil - 2018

Partners: FWF, DAAD, Ahoy! Berlin, USP, Embrapii

What can we do for you?

Inform and advise
about **research opportunities**

- In universities
- In non-university research institutes
- Research stays
- Research cooperations

What can we do for you?

Inform and advise
about **funding opportunities**

- PhD scholarship
- Post-doctoral scholarship
- Scientific exchange scholarship
- Collaborative research
- Others

What can we do for you?

Being partner of events & projects

Deutsch-Brasilianisches Symposium
Desenvolvimento Sustentável
Nachhaltige Entwicklung

February 25 – March 1, 2019.
at Instituto de Física Teórica - UNESP, São Paulo, Brazil

SPEAKERS

Tassos Belias (GSI, Darmstadt, Germany)
Marco Bregant (IF-USP, Brazil)
Kai-Thomas Brinkmann (Giessen U., Germany)
Evgeny Epelbaum (Ruhr-U. Bochum, Germany)
Christian Fischer (Giessen U., Germany)
Tobias Frederico (ITA, Brazil)
Tord Johansson* (Uppsala U., Sweden)
Takeshi Kodama (UFRJ, UFF/INCT-FNA, Brazil)
Frank Maas (HIM/Mainz U., Germany)
Marcelo Munhoz* (IF-USP, Brazil)
Fernando Navarra* (IF-USP, Brazil)
Klaus Peters (GSI, Darmstadt, Germany)
Tobias Stockmanns (FZ Jülich, Germany)
Jun Takahashi (UNICAMP, Brazil)
Kazuo Tsushima (UNICSUL, Brazil)

FAIR, the Facility for Antiproton and Ion Research, based in the German city of Darmstadt, is a new international accelerator facility for the research with antiprotons and ions. The scientific questions it will address include: (1) How did matter in the early Universe evolve and why does it look the way it does today? (2) How does matter behave across the wide range of temperatures and pressures found in the past and present Universe? (3) How does the strong force, which binds the particles comprising atomic nuclei work - and where do their masses come from? (4) Where do the atomic elements come from? (5) How does the electromagnetic force, which binds atoms and molecules, work under extreme conditions? To address those questions, the FAIR experiments require high precision detectors for charged and neutral particles for high-interaction rates.

The workshop at the ICTP-SAIFR intends to bring together theorists and experimentalists to discuss these physics topics accessible at this facility. In addition, the workshop aims to expose the possibilities for involvement of more Brazilian physicists in what will be the leading future experiments to study the strong forces within nuclei which FAIR offers.

There is no registration fee.

* To be confirmed

Application deadline:
January 13, 2019

Online registration form and information:

Minicurso sobre Didáticas da Matemática durante o XI Workshop de Verão em Matemática

20/02/2019 a 21/02/2019 - Universidade de

Brasília

Acontece nos dias 20 e 21 de fevereiro, durante o XI Workshop de Verão em Matemática da Universidade de Brasília (UnB), o Minicurso sobre Didáticas da Matemática, organizado pela própria UnB em conjunto com FU Berlin e com parceria do DWIH São

Institutos Max Planck abrem novas vagas para doutorado e pós-doutorado

Copyright: Max Planck

SOCIEDADE MAX PLANCK

A Sociedade Max Planck preparou um pequeno resumo (em espanhol) com vagas de pesquisa de doutorado e pós-doutorado nos seus diferentes Institutos, geradas em janeiro de 2019. Estas vagas pertencem aos grupos de pesquisa que trabalham nesses Institutos e respondem à necessidade de incorporar pessoal para o desenvolvimento de projetos específicos. Dessa vez, há também algumas das Escolas Doutorais de Pesquisa Max Planck.

As vagas estão disponíveis em unidades como os institutos Max Planck de Microbiologia Terrestre, Imunobiologia e Epigenética, Biologia de Envelhecimento, Física, Física Extraterrestre, Astronomia, Antropologia Social e Genética Molecular. As oportunidades abrangem áreas como Genética, Bioinformática, Biologia Molecular, Geologia, Engenharia

Mecânica, Biotecnologia, Astrofísica, Linguística, Antropologia Social, entre outras.

As inscrições podem ser feitas nos sites indicados nos arquivos disponíveis na página da convocatória para a América Latina da Sociedade Max Planck. Os prazos para inscrição vão de 15 de fevereiro a 31 de março, conforme a instituição e o curso.

Tenha acesso à página com as novas vagas, geradas em janeiro aqui!

Other German Funding Programmes

2º Dia da Alemanha na UFABC
UFABC, 20th February 2019
Marcio Weichert, Coordinator

Alexander von Humboldt Foundation: Programmes for Researchers from Brazil

- **Capes-Humboldt Research Fellowship Programme**
 - for Postdoctoral and Experienced Researchers (up to 12 years after doctorate)
- **Georg Forster Research Award** (by nomination)
 - for internationally eminent academics (at the height of their careers)
- **International Climate Protection Fellowships**
 - for prospective leaders from transition and developing countries who are engaged in climate protection (up to 12 years after first university degree)
 - with background in non-governmental organisations, public administrations, politics, academia or business
- **German Chancellor Fellowships**
 - for prospective leaders from [Brazil](#), China, India, the Russian Federation and the USA (up to 12 years after first university degree)
 - from a broad range of areas such as politics and public policy, law, media, business, the non-governmental sector, and the arts

Capes-Humboldt Research Fellowship Programme

- excellence-based selection, **sponsorship of people**, *not projects*
- 2 calls per year
- free choice of academic host/collaborative partner in Germany
- assessment by independent expert reviewers
- decision by an independent selection committee
- **96** Capes-Humboldt Research Fellowships granted so far

→ Information on new calls and deadlines will be published on our website and at Capes

BAYLAT-Call for Proposals for New Scientific Projects (BAYLAT-Anschubfinanzierung)

- Aim: creating new and long-lasting scientific cooperation between Bavarian and Latin American partner institutions
- Eligibility:
 - collaborative projects of investigation
 - design of joint study programs
 - collaborative projects aiming at the improvement of lectureship
- Yearly call for proposals under
<https://anschub.oasys.baylat.org/page/xhtml/index.xhtml>
- Funding of up to 6,000€ per proposal
 - Also includes: travel costs to Bavaria and accommodation for Latin American partners
- Open for all disciplines and themes and 20 countries in Latin America

- Aim: increase and expansion of cooperation in science and research between the partner regions Bavaria and the State of São Paulo including funding of junior researchers
- Eligibility:
 - Scientific workshops, mobility of scientists, information exchange
- Yearly call for proposals
- Workshops take place in Bavaria and in the State of São Paulo
- Funding depends on workshop's conception
- Open for all disciplines and themes and researchers from the two regions

Scholarships for Students of Latin American Universities

- Funds Latin American students for a research stay at a partner institution in Bavaria (for more information please contact the International Office of your home university)
- Amount: 730€ per month + 150€ (one-off payment for health insurance)
- Funding period: min. 1 to max. 5 months
- New: scholarships also possible for Brazilian students
- Criteria: grades, quality and practicability of research stay, language skills level
- No funding for PhD candidates
- Next call: first half of 2019 for stays in Bavaria in 2019

EURAXESS Brazil & LAC divulgam 100 oportunidades de financiamento

Copyright EURAXESS

A EURAXESS Brazil e a EURAXESS LAC selecionaram 100 oportunidades de financiamento para intercâmbio de pesquisadores com a Europa. As chamadas estão abertas para doutorado, pós-doc e mobilidades com o objetivo de promover o conhecimento para pesquisadores do Brasil e do Caribe.

Na Alemanha, há oportunidades de intercâmbio em instituições como a Universidade Técnica de Munique, a Universidade da Região do Ruhr (UA) e o Amparo à Pesquisa (DFG), entre outras.

FAPESP e Sociedade Max Planck lançam chamada de propostas

SOCIEDADE MAX PLANCK

A FAPESP e a Sociedade Max Planck para a Promoção da Ciência (MPG), da Alemanha, anunciaram a segunda chamada de propostas no âmbito do acordo de cooperação (<http://www.fapesp.br/10699>) firmado entre as instituições. O objetivo é fomentar o estabelecimento de grupos de pesquisa independentes associados a universidades ou institutos de pesquisa do Estado de São Paulo, em forte colaboração com pesquisadores vinculados a um dos 84 Institutos Max Planck.

Podem se candidatar jovens pesquisadores de qualquer nacionalidade, altamente qualificados e com ao menos dois anos de experiência pós-doutoral (anterior ou em andamento) em grupos de pesquisa internacionalmente competitivos fora do Brasil. A chamada é focada nas áreas de "astronomia, química, física, geociências, matemática, ciências da computação e engenharia", "ciências da vida e medicina" e "artes e ciências humanas, sociais e cognitivas".

As submissões devem seguir as normas do Programa Jovens Pesquisadores em Centros Emergentes (www.fapesp.br/4521). O prazo para envio de propostas vai até o dia 19 de setembro de 2018 e deve ser feito neste link: <http://www.fapesp.br/sage/>. Veja aqui a íntegra da chamada: www.fapesp.br/en/11812.
