Summer School Programs

Tailor Made Programs

Intensive Language Programs

The University of Potsdam has been developing its own trademark program of an International Summer Campus since 2016.

Every year, senior and junior scientists, scholars and students travel to the historical campus of our university to participate in the International Summer Campus. The broad diversity and academic excellence of these programs as well as the competent logistical support for our guests and the beautiful ambience of Potsdam provide for an experience valuable on both an academic and personal level.

But take a look yourself!

Soon you will begin your studies at the University of Potsdam. To make the beginning of your stay easier for you, we can connect you with a buddy. If possible, we will match you with a buddy from your program of studies in order to offer the best support. Participating in the buddy program is free of charge. Our buddies are experienced University of Potsdam students who would like to help you get to know the university and life in Germany. And by participating in this program, they hope to learn more about your culture as well.

Your buddy can help you answer any questions before your arrival in Potsdam or Berlin. He or she can give you advice on everyday issues such as shopping facilities or mobile phone and provide you with tips on how to spend your spare time. Over the course of the semester, you can turn to your buddy whenever you have a question.

The International Office and the Potsdam buddies look forward to welcoming you to our university!

Language classes, Summer- & Winter Schools, and different cooperations - explore our courses for international students at the University of Potsdam.

International Summer Campus with many different course options (intensive language course, international summer academy sans souci, winter schools, ...)

A Cosmopolitan Academic Institution

The University of Potsdam, as a center for science and research, is a university which is open to the world as it is ideally situated: it is located in the historic heart of Brandenburg and in immediate vicinity to the metropolis of Berlin. Therefore, it attracts more and more international students and it is important to us, to support them before and during their stay and studies in Potsdam. Here is a list of the different programs we offer:

❖ STIPENDIUM DES DAAD

Studienabschlussbeihilfe für internationale Studierende

Ein Stipendium des DAAD

Das International Office stellt ausländischen Bachelor- und Masterstudierenden der Universität Potsdam pro Semester bis zu drei Stipendien als Studienabschlussbeihilfe zur Verfügung. Die Studienabschlussbeihilfe des DAAD fördert internationale Studierende, die sich in der Studienabschlussphase befinden und sich bisher selbst finanziert haben.

Förderungszeitraum

- höchstens 5 Monate

Stipendienhöhe

- 400,00 Euro pro Monat

Bewerbungsvoraussetzung

- gute Leistungen im bisherigen Studium
- ordnungsgemäß durchgeführtes Studium (durchschnittliche Studiendauer - nicht dasselbe wie die Regelstudienzeit. Die durchschnittliche Studiendauer Ihres Faches können Sie im International Office erfahren.)
- es muss erkennbar sein, dass ein Examensergebnis in einem Jahr erzielt werden kann
- Finanzierung des Studiums bislang aus eigenen Mitteln
- wirtschaftliche Bedürftigkeit

Bewerbungstermine

- 15. Juli für das folgende Wintersemester (Ausschlussfrist)
- 15. Januar für das folgende Sommersemester (Ausschlussfrist)

❖ DAAD PRIZE for international students

Application deadline for the 2019 DAAD Prize: March 1, 2019!

The German Academic Exchange Service (DAAD) provides funds to German universities to make this award available, and it places the responsibility for selecting awardees into the hands of the university. At the University of Potsdam, the DAAD Prize is the most important award for international students. For the awardees the Prize represents the recognition of their academic achievements by one of the most renowned German fellowship organizations.

Being a former recipient of a DAAD fellowship or Prize can facilitate the beginning of a professional career. Being part of the "DAAD ALUMNI community" also means having access to an international network that can be used for a variety of purposes. Those supported by the DAAD generally stay in touch with their universities, and they often return for their doctorate or as scholars.

The Prize can also show the broader public how international students are enriching our academic community. Within only a few years, the Prize has gained a remarkable reputation – a fact that is also reflected in the great interest that the media takes in the awardees.

The Prize honors students with outstanding academic achievements and a remarkable social – especially intercultural – engagement.

This Prize can be given to advanced Bachelor's students, Master's students, students in their main course of study (Hauptstudium) as well as those who have recently completed their final examinations or doctoral students. Nevertheless, the DAAD award is not a research prize, and it is not intended to honor work on a doctoral dissertation. For recent graduates, the final examinations should have been completed as a rule no more than 3 months prior to the award ceremony.
